CampusLoop

The Problem

Campus life is fragmented.

Hard to discover clubs & communities

Information is scattered across WhatsApp, posters, seniors, and random social media channels.

Missed events & opportunities

Great hackathons, workshops, talks and internships often go unnoticed.

Hard to find like-minded people

It's not easy to connect with peers who share similar interests across different domains.

No trusted, unified platform

Everything is fragmented and unofficial, leading to confusion, outdated information and spam.

CampusLoop

Go-To-Market Strategy

From one campus to every campus

A focused, repeatable, and scalable plan to build the largest student network in India.

1 Phase 1

Campus First

Launch deeply at BIT Mesra

- Onboard student ambassadors
- List and verify all clubs & communities
- Drive initial adoption through campus events
- Build a strong, engaged student base

2 Phase 2

Expand to Top Colleges

Repeat the playbook at IITs, BITS, VIT, SRM and others

IITs · BITS · VIT · SRM

- Use proven campus playbook
- Partner with student clubs and councils
- Onboard campus ambassadors
- Achieve product-market fit across top colleges

3 Phase 3

National Network

Scale across India, campus by campus

- Expand to 50+ colleges in Phase 1 rollout
- Build city and region level communities
- Create a unified national student network
- Establish CampusLoop as the default campus platform in India

Campus Launch Playbook

A repeatable process to launch and grow in every new campus.

1. **Ambassador Onboarding** — Recruit and empower student ambassadors on campus.
2. **Club Partnerships** — Work with official clubs, councils and student bodies.
3. **Welcome Week Activation** — Run campaigns, events and on-ground promotions.
4. **Repeat Participation** — Keep students coming back through new events, opportunities and communities.
